Company Profile

Guangzhou Fenghe Furniture Co., Ltd., founded in 2019, is an enterprise primarily engaged in furniture manufacturing. With a strong design team and skilled production and technical workforce, after years of development the company has grown into a whole-home custom furnishing enterprise integrating R&D, production and sales.

Since 2019, as the industry has evolved and demand has shifted from new-build to existing-home upgrades, Fenghe Home has expanded from integrated kitchen cabinets to whole-home panel customization, serving the South China terminal market and full-home renovation platforms. We cooperate with major property managers on local-renovation and product-upgrade services, earning consistent praise from consumers.

Core business breakdown:

Whole-home customization (70%): wall paneling, hidden doors, wardrobes, wine cabinets,

bookcases, shoe cabinets, kitchen cabinets and related series;

Full-solution customization (30%): design, woodwork, integrated door-wall.

Whole-Home Custom

An integrated solution combining home design, custom fabrication and installation. Based on scalable production, it builds exclusive furnishings tailored to each customer's requirements.

Full-Solution Custom

Covers interior space design, finish-material design, furniture and accessory design, and equipment planning. Architectural layout and custom furniture are designed and delivered as one unified scheme.

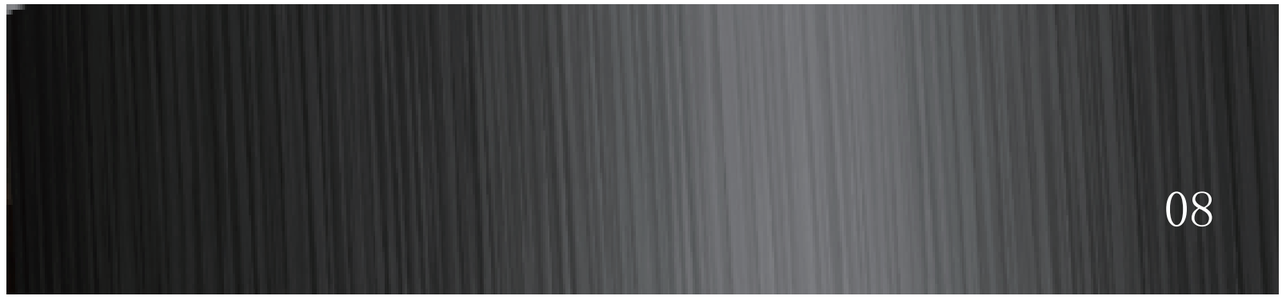
LIVING ROOM

Living Room | The Warm Prelude of Home

Opening a world full of love and warmth



DINING

A Return to Simple Living

Good Food Soothes the Soul

Modern minimalism sets aside the burdens of the day.

Dining | Where the Heart Is

The dining room is where people come home for comfort and the essence of life. It makes you love this clean, uncluttered feeling - understated but not careless, refined but not flashy. The simpler it gets, the more sophisticated it feels.

Aijia Board - Core Selling Points

1. Eco-friendly: rubber-wood solid-wood particleboard with natural latex; formaldehyde release meets European E1.
2. Finish: German-imported Schattdecor - wear/scratch-resistant, color-stable.
3. Edge banding: German REHAU 1.2mm PVC, rich colors, fine texture.
4. Craft: same color both sides, high flatness, no bubbling, moisture-proof.

Spruce Green

Super Crystal - Core Selling Points

1. Eco-friendly: advanced curtain-coating; UV coating is hard, wear/acid/alkali/fade resistant, no solvents.
2. Surface: high-gloss gives mirror-like baked-enamel depth with double-laminate hardness. Matte UV layer - soft sheen, flat, no orange peel.
3. Edge banding: Grade B uses laser edge banding - no visible joint, anti-yellowing, flawless.
4. Process: paint curtain-poured from a head tank onto the moving workpiece; excess recirculated.

Nice Elm

King of Light Luxury: UV-resistant, baked-enamel luster, double-laminate hardness; high flatness and gloss for quality customers.

Door Panel Series

3D Membrane - Core Selling Points

1. Eco-friendly: Renolit film + German Jowat adhesive on MDF.
2. Finish: German-imported Renolit film.
3. Edge banding: German Burkhardt vacuum press - one-piece, no edge band.
4. Craft: Burkhardt/Wemhoner 3D presses, stable pressure, even heat, thorough vacuum; scratch/wear resistant, no bubbling, oil-repellent. PVC or PET film; PET contains no formaldehyde, toluene or xylene.
5. PET: ultra-high eco performance; no harmful gas when burned; widely used in food/medical packaging; low color variation, fade-resistant.

Service Advantages

Price: Our own factory - better pricing on the same materials.

Craft: German Jowat PUR edge banding + Italian four-in-one micro-perforation.

Upgraded Italian micro-perforation for more beautiful cabinetry.

Design: More personalized, diversified products.

Material: Name-brand boards; more diversity and design possibilities.

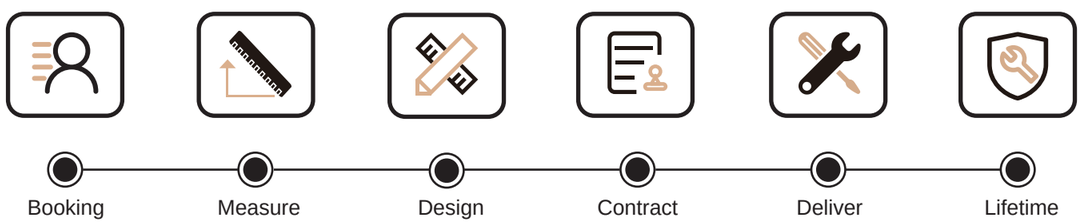
More design extensions and possibilities.

Hardware: Big-brand hardware from long-term fixed suppliers.

Lower procurement cost.

Convenient stores, strong displays. One-on-one service; pre-sales plans revised until satisfied; real-time order tracking; high after-sales satisfaction.

Customization Process



Why Fenghe

1. ENF eco-grade boards - the top tier of eco-rating.
2. DTC hardware, certified to EU Grade 2; 80,000+ open/close cycles.
3. Eco craft: German Jowat PUR edge banding.
4. In-house designers + one-stop installation - worry-free.
5. Five years of free after-sales service.

Our Boards

志宇木业 ZHIYU WOOD INDUSTRY

金叶绿森 JINYE LVSEN

All boards are certified by national authorities; physical and eco performance lead the industry.

Specifications

Name: Solid-wood plywood

Grade: ENF, E0

Size: 1220x2440 mm

Thickness: 18 mm

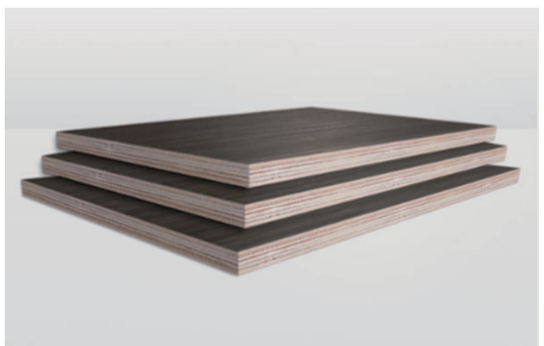
Service Advantages

Product Introduction

Scientific craft, stable and warp-resistant.

Our solid-wood plywood is made from high-quality eucalyptus over 8 years old, rotary-cut into veneers and - using imported equipment - dried, joined, glued, hot-pressed and sanded into uniform boards. Eco-friendly adhesive bonds veneers with adjacent layers at right angles to control wood stress and minimize warping. Professionally kiln-dried substrates have more uniform moisture content, making boards more stable and better suited to most climates in China.

Cabinet body: multi-layer plywood



Cabinet door: OSB
